OUTLOOK

3Q 2010 RESULTS ANNOUNCEMENT

OUTLOOK

Most customers of the Group maintain their positive sentiment. However a few customers have exercised caution in their demand commitments going into the fourth quarter. Overall, the Group expects sequential revenue growth to continue into the fourth quarter.

Assurance of supply of electronic components and mechanical parts is expected to continue to improve in the coming quarters. Certain components may still experience some supply tightness, however, this is being managed proactively with due consideration to customers' requirements.

In the past three quarters, the Group had registered an improving profitability profile, underpinned largely by a business-mix shift towards technology services, products and solutions with greater design and engineering content; and its ability to sustain an efficient operating structure. Going forward, Venture remains driven to achieve profitable growth, focusing on the continuous pursuit of operational excellence, innovation and technological competencies.
